## IMPACT STUDY: KEY FINDINGS

- Patients are experiencing the health benefits of integrated, wholistic and supportive care.
- SRCC patients express a greater degree of self-efficacy and sense of commitment regarding their health.
- Patients of SRCC believe that the clinic provides wholistic community-based care for underserved populations.
- SRCC patients become advocates for themselves and the community.
- The patients of SRCC feel acknowledged and affirmed through their interactions with SRCC providers and clinic staff.
- Patients identify that, when accessing specialty treatments, there are still significant barriers.

## FREE QUALITY HEALTHCARE SERVICES

Bridging the gap in healthcare for the uninsured, low-income and underinsured residents in the Lewis-Clark Valley and surrounding region.
